

**He's such a good  
baby—he sleeps  
all the time.**

1

**She never seems  
satisfied.**

2

**I don't want to  
breastfeed in  
front of all these  
visitors.**

3

**My mother says  
giving him some  
formula will help  
him sleep better.**

4

**Can't I  
just pump?**

**My mother-in-law says I am spoiling her.**

**My breasts  
feel like  
bowling balls!**

**She prefers the  
bottle to  
my breast.**

**He cries  
all the time.**

**My doctor says  
she's probably  
allergic to  
my milk.**

**I don't think  
my milk is  
rich enough.**

**All I feel like  
doing is crying  
all the time.**

**I don't think my baby  
likes me . . . he cries  
and pushes away  
when I offer  
my breast.**

**My other baby  
had formula and  
turned out  
just fine.**

**I'm so tired . . .  
take my baby to  
the nursery so I  
can sleep.**

**My baby needs a  
pacifier because  
she is nursing all  
the time.**

**I want to do  
both until my  
milk comes in.**

**I don't think I have enough  
milk. He's crying anytime I  
put him down and he  
nursed all night, so I want  
to give him a bottle.**

**I'm not getting  
anything when I  
pump.**

**My milk hasn't  
come in yet, so I  
think she needs a  
bottle of formula.**
